Hotel Occupancy Rates Dashboard

This dashboard provides an insightful overview of various properties' occupancy rates over a specified date range from 01-05-2022 to 31-07-2022. Here are the key components and insights:

Key Metrics

- **Overall Occupancy Rate:** 43.50%
- **Revenue and Occupancy Rate:** 45.08%
- **Week Over Week (WOW) Occupancy Rate:** 12.74%
- **Month Over Month (MOM) Occupancy Rate:** 0.82%

Occupancy Rates by Property

A detailed table lists the occupancy rates for different properties:

- ITC Exotica, Agra: 49.69%
- ITC Blu, Agra: 50.03%
- ITC Grands, Bangalore: 33.50%
- ITC Exotica, Bangalore: 40.65%
- ITC Bay, Bangalore: 49.80%
- ITC Palace, Bangalore: 39.93%
- ITC Grands, Delhi: 49.39%
- **Total Occupancy Rate:** 43.50%

Additional Visualizations

- **Occupancy Rate by Month:** A line chart shows a decline from May to June.
- **Occupancy Rate by Type of Day:** A pie chart indicates 42.01% occupancy for weekends and 47.28% for weekdays.
- **Occupancy Rate by Week of Year:** A line chart illustrates fluctuations in occupancy rates over different weeks.

Insights

This dashboard is valuable for monitoring and analysing the performance of various properties in terms of occupancy rates. It helps in identifying trends, such as higher occupancy during weekdays compared to weekends, and allows property managers to make informed decisions to optimize occupancy.

Hotel Performance Dashboard Overview

This dashboard provides an in-depth analysis of hotel bookings and revenue, broken down by various metrics and filters to offer a comprehensive view of performance. Here's a detailed explanation:

Key Metrics:

- **Average Length of Stay:** 2.37 days
- **Average Time Between Booking and Check-in:** 3.71 days

Filters:

- **Property ID:** A dropdown to select different hotel properties.
- **Room Class:** Checkboxes to filter data by room class (Elite, Premium, Presidential, Standard).

Month and Week Growth:

- **Month Name:** Displays month-over-month (MOM) growth percentages:
 - July: 3.43%
 - June: -4.81%
 - May: 0.00%
- **Week of Year:** Displays week-over-week (WOW) growth percentages:
 - Week 19: 0.00%
 - Week 20: 0.91%
 - Week 21: -17.58%

Average Length of Stay by Room Class:

A pie chart shows the average length of stay for different room classes:

- **Premium:** 25.45%
- **Standard:** 25.06%
- **Elite:** 24.42%
- **Presidential:** 25.06%

Revenue by Booking Lead Time:

A bar chart illustrating revenue based on the booking lead time (in days). The highest revenue is generated from bookings made with a 0-day lead time.

Revenue by Category and Room Class:

A stacked bar chart displaying revenue by category (Luxury and Business) and room class (Elite, Premium, Presidential, Standard). Luxury generates more revenue than Business.

Insights:

This dashboard effectively highlights key performance indicators and trends in hotel bookings, providing valuable insights for business decision-making. It shows the impact of booking lead time on revenue, the popularity of different room classes, and the month-over-month and week-over-week growth trends. These insights can help hotel managers optimize their operations and marketing strategies to improve performance.

Hotel Booking Cancellations Dashboard

This dashboard offers a detailed analysis of hotel booking cancellations and their financial impact. Here's an overview of the key metrics and visualizations:

Key Metrics:

- **Cancellation Rate:** 24.83%
- **Cumulative Cancellations:** 33K
- **Lost Revenue Due to Cancellations:** ₹498M
- **Total Revenue Lost:** ₹299M

Date Range:

- The data covers the period from 01-05-2022 to 31-07-2022.

Filters:

- **Month:** You can select data for May, June, or July.

Visualizations:

1. Lost Revenue by Room Class and Room ID:

- A pie chart displays the distribution of lost revenue by room class:
 - **Elite:** ₹164M (33.03%)
 - **Premium:** ₹136M (27.26%)
 - **Presidential:** ₹108M (21.66%)
 - **Standard:** ₹90M (18.06%)

2. **Cancellation Rate by Property Name and Room Class:**

- A bar chart shows the cancellation rate for different properties and room classes, including:
 - ITC Palace
 - ITC Grands
 - ITC City
 - ITC Bay
 - ITC Seasons
 - ITC Blu

- ITC Exotica

3. **Cancellation Rate by Room Class and Month Name:**

- A bar chart displays the cancellation rate for different room classes (Elite, Premium, Presidential, Standard) across the months of May, June, and July.

Insights:

This dashboard helps in understanding the impact of cancellations on revenue and identifies trends in cancellation rates across various properties and room classes. By analysing this data, hotel managers can develop strategies to reduce cancellations and optimize revenue.
